**GeoNews** is a publication of the Carolinas Chapter of AEG. There are four issues per year, with deadlines and issue publication dates listed below. We publish news of the profession, announcements, student member news, technical articles, and job openings.

#### **Deadlines for submittal to AE Carolinas GeoNews**

(can be flexible depending on events)
Spring—deadline March 1, issue date March 21
Summer—deadline June 1, issue date June 21

Fall—deadline Sept 1, issue date Sept 21 Winter—deadline Dec 1, issue date Dec 21

#### **Deadlines for submittal for the National AEG News:**

March issue—January 15
June issue—April 15
September issue—July 15
December issue—October 15

#### MESSAGE FROM THE CHAIR

By Susan Avritt, P.E., P.G., Carolinas Chapter Chair

**Greetings Carolinas Chapter!** 

I hope everyone is healthy and managing okay during these very strange and uncertain times. We were planning an April dinner meeting in Raleigh, but obviously had to cancel the meeting. We are tentatively planning a September dinner meeting in Asheville. Also, we are planning a field trip to the Emerald Hollow Mine in Hiddenite, NC in October. We held a field trip to the mine in 2017, and it was a great success. The field trip is limited to 50 participants and sold out last time, so be sure to sign up early when we send the registration forms out.

Due to the success of the AEG National meeting held in Asheville in 2019, which was planned by the Carolinas Chapter, we received close to \$6,000 from the meeting proceeds. To support the Carolinas Scholarship, we voted to donate \$10,000 to the scholarship fund. This year the Carolinas Scholarship awarded \$2,000 to Ciara Sailar, an undergraduate student at Appalachian State University who will use the scholarship to help fund field camp. If you know an undergraduate student studying geology, please let them know about the Carolinas Scholarship. The Scholarship board voted to increase the award to \$3,500 next year, which should go a long way to support a deserving student.

Geologic Mapping

Doug Canavello, P.C., M.B.A

Eric Cross, P.G.

It is that time of year to renew your AEG membership. As North Carolina licensed geologists we are required to earn continuing education credits to maintain licensure. AEG presents opportunities at quarterly dinner meetings, classes, conferences and field trips to earn some of these credits, all of which are preapproved by the NC licensing board. Although the NC Board for Licensing Geologists voted to waive the continuing education requirements for this year's license renewal, we still encourage you to renew your membership.

It is also that time to renew sponsorships. We appreciate the support of our sponsors, which helps provide free dinner meetings to students and offset some of the costs of meetings. Please contact Eric Cross (eric@pyramidenvironmental.com) to renew your sponsorship or become a new sponsor.

(Continued on Page 4)

(Continued from Page 3)

If you are interested in becoming more involved with the AEG leadership, the focus groups, or AEG in general, please contact me or other members of the Carolinas Board. We are currently in search of a Carolinas Chapter Secretary for 2020-2021. Professionals, regulators, and teachers are all encouraged and welcome.

As always, your board and I look forward to hearing from each of you regarding your suggestions and/or concerns related to our Chapter. We are here to serve the needs of our membership, so your feedback is vital and welcome.

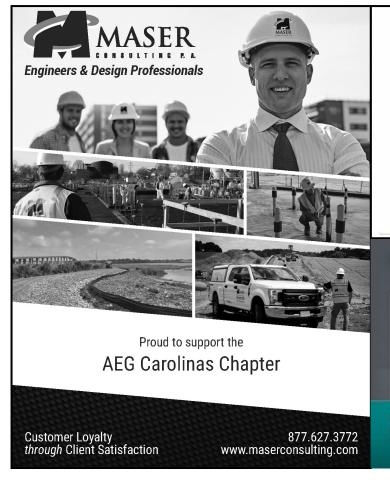

Susan Avritt, P.E., P.G.

#### **SAEDACCO**

Innovative Solutions: Groundwater Interval Profile Sampling Using Roto Sonic Drilling

SAEDACCO is using its Roto-Sonic drill to conduct Groundwater Interval Profile Sampling. This in-situ sampling system is used in sedimentary aquifers with a two inch stainless steel screen, inflatable packer and a Grundfos Redi-Flo pump to collect discrete formation samples at a rapid pace during the drilling process. This system assists the client in determining the vertical extent of contamination in aquifers without having to install multiple monitoring wells. Cost savings, innovative ideas! Let us know how we can help you on

SAEDACCO, Inc.

9088 Northfield Dr. Fort Mill, SC 29707 800.849.0353 / www.saedacco.com Your one source for DPT, roto sonic, conventional drilling, injection and remediation services.

#### **Online Training Resources**

By Josh Hanks

I hope everyone is healthy and staying safe as we continue taking precautions against the spread of COVID-19. While much of the work in our industry has slowed down if not halted during these strange times, many of us are working remotely and adapting to social distancing practices. For those who are interested, this could be an opportunity to take an online workshop and/or webinar.

There are quite a few resources for online training on a variety of topics. Both free and paid online training sources are listed below and several upcoming courses are listed in the calendar of events. If you know of any additional training opportunities/webinars/etc. that may be of interest to our field, please feel free to send us an email and we would happy to share it with the group.

Again, please stay safe and I look forward to having a beer with everyone once we get through this.

#### Free Online Resources

- CLU-IN webinars: <a href="https://clu-in.org/default.cfm">https://clu-in.org/default.cfm</a>

- NCBLG Continuing Education (approved courses includes online training): <a href="https://www.ncblg.org/ce/">https://www.ncblg.org/ce/</a>

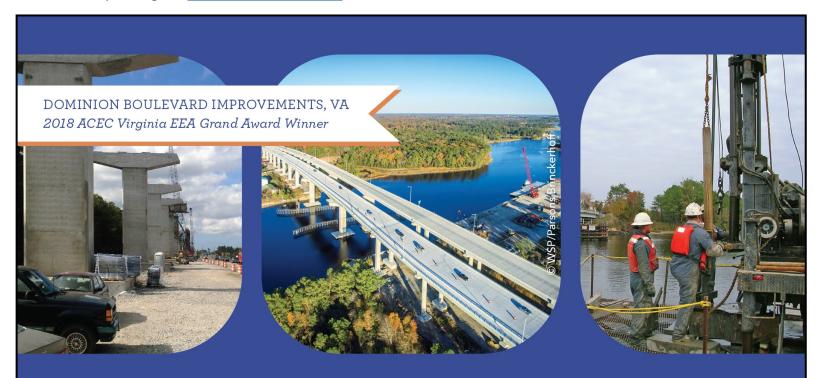

#### **Continuing Education for 2019-2020**

By Josh Hanks

Some of you may already be aware but the NC Board of Licensing Geologists (NCBLG) has voted to waive the continuing education requirement for the 2019-2020 license period due to the ongoing COVID-19 pandemic. Please be aware that the license will still expire on June 30, 2020 if you do not renew and that any continuing education (or professional development hours) to be claimed during the 2019-2020 period and carried over to the 2020-2021 period should be submitted with your renewal.

If you are looking for continuing education opportunities as we practice social distancing, there are many online resources available. While every online training opportunity may not be pre-approved by the NCBLG, licensees can submit a Continuing Education Approval Form to be reviewed and approved of by the Continuing Education Board.

For additional information on the NCBLG's announcement, continuing education approval, or renewing your license please go to <a href="https://www.ncblg.org/">https://www.ncblg.org/</a>.

Integrated dam, geotechnical, and tunnel engineering solutions ranging from subsurface explorations and soil testing to project risk management, engineering analysis, design, and construction support.

#### Recent Changes to DEQ/DWM Cleanup Guidance—5/15/2020

By the Division of Waste Management, NCDEQ

The Division of Waste Management made significant changes and additions to its hazardous substance cleanup guidance during the past year, summarized below. This document also offers, at one glance, a comprehensive list of our Division's cleanup guidance documents, to ease web page access to the information. The documents highlighted in yellow below have been recently revised.

#### **Risk Evaluation Resources**

The *DWM Risk Calculator* is a tool that can be used to (1) screen current risks posed by contaminated soils and vapors, (2) help plan the most cost-efficient remedial action and (3) evaluate whether a site may qualify for risk-based remediation under G.S 130A-310.65-310.77. The Calculator can provide risk levels posed by a site-specific set of contaminants (both for air and soil) and soil cleanup levels for restricted and unrestricted uses of the property. The Calculator also has other tools to aid in determining contaminant migration potential in evaluating qualification for risk-based remediation of groundwater.

The DWM Preliminary Soil Remediation Goal (PSRG) tables and structural Vapor Intrusion (VI) screening tables provide a first screen toward evaluating current risk and attainment of unrestricted use standards. If the "residential" use and "protection of groundwater" numbers on the PSRG tables are not exceeded, site soils can be considered to have met standards, requiring no further work. If "residential" or "nonresidential" (as appropriate) numbers on the VI screening tables are met, the vapor samples are considered to have met acceptable vapor concentrations. Additional sampling may still be required. If the PSRG or VI screening numbers are exceeded, the soils and air samples may still meet acceptable concentrations. The PSRG and VI tables provide a more conservative first screen, not taking into account the number of contaminants present and their particular toxic effects. If the numbers on the tables are exceeded, the Calculator can then be used to determine if risk targets and remediation standards are actually exceeded for the specific set of contaminants and their concentrations present at a site. The Calculator can also aid in reducing the cost of remedial action. For example, the site-specific risk results provided by the Calculator may show one contaminant, that is limited in extent, is contributing the most risk. Removal or treatment of this contaminant may bring the whole site to within remediation standards. Additionally, the Calculator can help determine if land use restrictions, instead of or in combination with, active remediation may result in a lower cost remedy.

The Calculator has been updated to include the most current US EPA toxicological values and has some improvements that make it easier to use. The *Risk Calculator User Guide* now includes more details and graphics to provide step-by-step instructions. The December 2019 revisions of both of the Calculator and User Guide replace any previous versions, so be sure to update bookmarks or favorites on your browser.

#### TCE Indoor Air Inhalation Immediate Action Levels and Response

Following the Secretary's Science Advisory Board's (SAB) approval of Trichloroethylene (TCE) vapor intrusion action levels in February 2019, the Division has prepared the following guidance and factsheets regarding the implementation of these action levels. The weblink for all follows.

- DWM Supplemental Vapor Intrusion Guidance Trichloroethylene (TCE) Indoor Air Inhalation Immediate Action Levels and Response (July 2019)
- Factsheet TCE in Residential Indoor Air (July 2019)
- Factsheet TCE in the Workplace Indoor Air (July 2019)
- Notification and Response Actions Associated with TCE in Indoor Air for use by consultants to communicate potential risks to their clients (June 2019)

https://deq.nc.gov/about/divisions/waste-management/waste-management-permit-guidance/dwm-vapor-intrusion-guidance#tce-indoor-air-inhalation-immediate-action-levels-and-response

The Supplemental Guidance and the Action Levels were developed through extensive coordination with the North Carolina Division of Public Health and with the US EPA Region 4. The SAB's review and endorsement process included the request for and consideration of public comment. Prior to the DEQ and the NC DPH submission of the *Guidance* and the *Action Levels* to the SAB in June, 2018, DEQ staff made presentations and requested stakeholder comment on draft *Guidance* and *Action Levels* at the following venues:

- North Carolina Manufacturer's Alliance September 2016
- American Council of Engineering Companies & Professional Engineers of North Carolina October 2016
- Environmental Health Subcommittee of the North Carolina Association of Local Health Directors -February 2017
- Registered Environmental Consultants update training by DEQ staff and REC Newsletter March 2017
- North Carolina Bar Association Environment and Natural Resources Subcommittee Annual Meeting May
   2017
- Dunklee & Dunham VI Symposium, August 2017
- Association of Engineering Geologists National Vapor Intrusion Symposium October 2017
- North Carolina Department of Labor staff December 2017

(Continued from Page 12)

Carolina Board Meeting Minutes 03-05-2020 from 5pm to 6pm—Conference Call

By Jennifer Thomas—Secretary

- 1. Call to Order
- Roll Call: Jacob Hundl, Maddie German, Rick Kolb, Susan Avritt, Adam Phillips, Jane Gil-Shaler, Jen Thomas, Paul Weaver, Beca Deal, Rohit Warrier
- 3. Carolinas Chapter Finances Walt
  - a. Review of current chapter finances:

Savings: \$29,613 Checking: \$6,095 PayPal: \$769 Total: \$36,477

b. Amount from AEG National meeting in 2019:

\$5,975

- 4. Chapter Meetings
  - a. Charlotte January meeting
    - i. Cynthia had to cancel last minute, but fortunately we were able to find a great replacement due to the suggestion of the UNCC faculty.
    - ii. About 76 in attendance (12 students, 6 teachers, 11 members, 37 members, 37 non-members, 8 sponsor dinners for free)
    - iii. ~\$1,400 overage/loss
    - iv. Everyone seemed to really like this venue (easy parking, cool place, meeting space is good, etc.).
    - v. Had a raffle for AEG t-shirts and raised about \$120 for Carolinas scholarship
  - b. April meeting, April 16, 2020
    - i. Speaker is AEG Jahns Lecturer Scott Lindvall. We decided we would like him to present A Tale of Three Dams Along the Owens Valley Fault System.
    - ii. We chose Fortnight, a brewery. We still need to check catering. We want to have a vegetarian option and possibly a glutenfree and vegan.
    - iii. Announcement was to go out when we identified the location.
  - We decided not to have the social/activity day and meeting at Charlotte WWC in summer.

(Continued on Page 15)

(Continued from Page 14)

- d. We are not changing the meeting attendance cost at this time but may discuss it further.
- 5. Succession plan—Susan

a. Chair: Jacobb. Vice Chair: Jenc. Treasurer: Walt

d. Secretary: We need a new one

e. Past Chair: Susan

#### 6. VI Conference III—Rick

- a. Planning committee has been established.
   There are 12 people. Kick off meeting was last week and they are working on selecting a venue.
- b. Will be in Spring 2021 to avoid conflicts with other conferences; will be in Triangle area.
- c. Co-sponsor is NCDEQ.

#### 7. Membership—Beca

- a. As of January, 83 members, include teachers (5), senior emeritus (5) and post graduate (5).
- b. Email sent to former members
- c. Beca sent a spreadsheet and requested officers sign up to call people they know on the spreadsheet.
- Sponsors—Eric
  - a. Emails have gone out to sponsors
  - b. Status: 10 so far (\$4,000)
- 9. Field Trips Rohit
  - a. Nutrien phosphate mine in Auror, NC field trip is not feasible since they can handle so few attendees.

(Continued on Page 16)

(Continued from Page 15)

- a. Boone dam won't work either.
- b. The Hiddenite Mine field trip will be held instead in mid-October.

#### 10. Jahns Lecturer—John

- a. April 2020, in coordination with Raleigh meeting.
- b. Jacob is behind due to illness and needs to put this together.

#### 11. Carolinas Scholarship—Paul

- a. One eligible applicant (one not eligible)
- b. \$2,000 this year
- c. We are keeping the same amount for 3 years before re-evaluating to keep things fair.
- d. Maddie moves to take \$10,000 from savings to foundation. Susan seconded. Passed unanimously. Susan will ask Walt to issue the check.

### **Geophysical Services**

- Locate abandoned USTs
- · Delineate buried waste
- Characterize bedrock fractures
- Map depth to bedrock
- Designate seismic Site Class
- · Map subsurface voids
- Locate rebar and PT cables
- · Many other applications...

#### ENVIRONMENTAL EQUIPMENT RENTAL & FIELD SUPPORT SERVICES

Eastern Solutions is an environmental rental and field service support company. Our inventory continues to grow with new and updated equipment and supplies. The equipment rental services offers free pick-up and delivery 90 miles from Charlotte (includes but not limited to Greensboro, NC; Greenville, SC; Columbia, SC), whether it's to an office or your job site. If you are outside the 90-mile radius, we offer free ground to and from shipping (equipment is shipped in plastic crates with pre-printed return labels inside). We'd like to thank all of our existing clients for their continued support and welcome any new clients. If you are interested in hearing more about Eastern Solutions, please let us know and we would be more than happy to come out and visit.

#### Below is a quick breakdown of the exciting things happening at ES:

Added Inventory / Supplies:

Along with several items added to our growing inventory, here is a quick list of those specialty items that have been requested:

- Core Drill w/ water kit
- Hammer Drills
- Diaphragm Pumps
- Air-Sparge System (Pilot Testing)
- SVE System (Pilot Testing)
- Sewer Camera w/Locator
- Downhole Camera w/DVR
- ATV / UTV Rental (Coming in April)
- Sand, Bentonite, and 55-Gallon Drums
- Large Selection of Vapor Points
- Carbon (Vapor/Water)

**New Support Services** 

Based on our client's requests to expand our support services, Eastern Solutions now offers the following (Please note these services are for existing rental clients only):

- Bushoging and Heavy Clearing (i.e. Forestry Cutter)
- Small Excavations and Trenching
- Silt Fence Installation
- Minor Storm Water Repair
- Downhole Well Camera w/DVR Service
- Sewer Push Camera w/Locator Service
- Field Personnel Support
- AS/SVE System Support and Installation
- Equipment Calibration and Repair Services

4543 Charlotte Hwy, Suite 8 Lake Wylie, SC 29710

#### AEG CAROLINAS CHAPTER – SPONSOR INFORMATION

The Carolinas Chapter of AEG supports many of its activities with financial assistance provided by our sponsors. Our activities include quarterly meetings, periodic field trips and seminars, a quarterly newsletter, and email announcements about our meetings and geoscience related activities. In addition, we donate large quantities of educational resources to science teachers.

We offer several levels of sponsorship, but they all have one goal: to keep the sponsor's name in front of our members and to bring you business. We have a real commitment to connecting our sponsors to potential buyers and will do all we can to help you build your business. Most of our members are practicing professionals with responsibility for selecting subcontractors, so our group is a great place to find new customers and to catch up with existing clients in an informal setting.

Our sponsors provide the financial support that allows us to have reasonably priced dinner meetings, host seminars, provide discounted dinner meeting costs for students and teachers, underwrite the cost of newsletters and our web site, provide geosciencementors for students and young professionals, and support science education tools to our teachers and in our schools. All costs listed below are per year and end in December. New sponsorships received after October will continue to December of the following year.

#### Silver Sponsor (\$275):

GeoNews Newsletter: Business card size ad (2" high x3-1/2" wide), four times per year.

Meetings: Listing on a Sponsor Poster, located at sign-in table. Verbal acknowledgement by name in Chairman's introductory comments.

Meeting Exhibits: Space for tabletop display at one meeting. Cost of meeting waived for one person on the exhibit date.

Email Announcements: Listing of your company name on each AEG Carolinas Chapter email announcement (our email list is currently over 1,000 people)

Web Page: Acknowledgement on the AEG Carolinas Chapter Web Page, <a href="https://www.aegcarolinas.org">www.aegcarolinas.org</a>, with a link to yoursite.

#### Gold Sponsor (\$400):

GeoNews Newsletter: Quarter-Page ad (4-1/2" high x 3-1/2" wide), four times per year.

Meetings: Listing on a Sponsor Poster, located at sign intable. Verbal acknowledgement by name in Chairman's introductory

Meeting Exhibits: Space for tabletop display at two meetings. Cost of meeting waived for one person on the exhibit date. Email Announcements: Listing of your company name on each AEG Carolinas Chapter email announcement (our email list is currently over 1,000 people)

Web Page: Acknowledgement on the AEG Carolinas Chapter Web Page, <a href="www.aegcarolinas.org">www.aegcarolinas.org</a>, with a link to yoursite.

#### Platinum Sponsor (\$550):

GeoNews Newsletter: Half-page ad (4-1/2" high x 7" wide), four times per year.

Meetings: Listing on a Sponsor Poster, located at sign intable. Verbal acknowledgement by name in Chairman's introductory comments.

Meeting Exhibit: Space for tabletop display at three meetings. Cost of meeting waived for one person on the exhibit date. Email Announcements: Listing of your company name on each AEG - Carolinas Chapter email announcement (our email list is currently over 1,000 people)

Web Page: Acknowledgement on the AEG Carolinas Chapter Web Page, <a href="https://www.aegcarolinas.org">www.aegcarolinas.org</a>, with a link to yoursite.

#### Titanium Sponsor (\$650):

Same as Platinum, but with a FULL PAGE ad in GeoNews. Limited to 2 Sponsors per year.

#### GeoNews Newsletter Sponsorship Only

Businesses or individuals can also advertise in GeoNews without being a full sponsor. The annual rates for advertising in GeoNews are as follows:

 Business Card
 \$ 40.00

 Quarter Page
 \$ 60.00

 Half Page
 \$ 100.00

 Full Page
 \$ 200.00

Please complete the form below and mail to Walt Plekan, AEG Carolinas Sponsorship Chair. Please call or email if you have any questions (contact information below).
