

## The South Carolina Association of Environmental Professionals invites you to attend!

**Date:** Thursday, June 16, 2022

**Time:** 6:30 pm (social) 7:00 pm (meeting start time)

**Where:** Owens Field Conference Room/Zoom

**Cost:** No charge for paid members or first-time attendees

**Speaker:** Andy Wykel– SC Geological Survey

**Topic:** Geology of the Lower Coastal Plain

### This presentation will focus on:

- Geology of the South Carolina Coastal Plain, with an emphasis on the Lower Coastal Plain.
- How is the Lower Coastal Plain mapped, and what are some problems associated with these methods?
- Differentiation of Lower Coastal Plain strand deposits by means of grain size, grain shape, and minerology by point counts.
- Using cluster analysis to differentiate Lower Coastal Plain strand deposits using the data collected from grain size, grain shape, and point counting analyses.

About the presenter: Andy is a Coastal Plain Geologist at the South Carolina Geological Survey, and he has been mapping in the coastal plain since 2017. Currently, he is a master's student at the University of South Carolina, where he is working on a new method to differentiate Pleistocene strand deposits in the South Carolina Lower Coastal Plain.
