

# The South Carolina Association of Environmental Professionals invites you to attend!

- Date:** Thursday, June 18, 2026
- Time:** 6:30 pm (social) 7:00 pm (meeting start time) – **Please RSVP**
- Where:** SC Power Team Office – 1201 Main Street, Suite 1710,  
Columbia, SC 29201 or Zoom ([link below and must register to access](#))
- Cost:** No charge for paid members or first-time attendees
- Speaker:** Glenna Thomas Ph.D., Technical Specialist, Geochemist, Haley & Aldrich
- Topic:** “Trending in the Right Direction – Smart Statistical Workflows for CCR  
Decision Making”

No one wants to be a button-pusher in statistics—just moving through a workflow without really understanding the data. In this presentation, we walk through the statistical approach used at Haley & Aldrich and how it is strengthened by geochemical insight and curiosity. By combining structured workflows with critical thinking, we maintain a living conceptual site model, better anticipate exceedance events and Alternative Source Demonstrations, and ultimately improve how we support client regulatory and organizational decision-making.

**Glenna** is a Project Geochemist at Haley & Aldrich who applies geochemical modeling, statistical analysis, and data visualization to support environmental management, regulatory compliance, and remediation strategy development. Her work focuses on interpreting complex environmental datasets—including CCR, mining, and rare earth element-focused geochemistry—and translating them into clear, actionable insights for multidisciplinary teams, regulators, and stakeholders. She holds a Ph.D. and M.S. in Environmental Science from the University of Copenhagen and a B.A. in Environmental Geology from Colgate University.

## Our Sponsors

## ❖ Who are we?

- SCAEP was founded in 1992 as a non-profit organization with the following objectives in mind:
- Promote harmony, cooperation, and mutual understanding among environmental consultants, regulatory agencies, educational professionals, business professionals, etc.
- Allow members of the various disciplines represented, both public and private, the opportunity to interact at a social level
- Encourage the transfer of technical information
- Provide a vehicle for continuing technical education
- Foster the highest standards of Professional Ethics within the environmental field
- Combat unfair practices within the environmental field

## ❖ Why Join or Sponsor SCAEP?

- PE/PG Credit Hours!
- Networking with professionals
- Food and drinks (some “fortified”) at each meeting
- A forum to present new research and interesting topics (PGs get 2 credit hours for presenting!)
- Two memberships when you sponsor SCAEP
- We always have fun and the whole group is pretty much AWESOME 😊
- Membership fees are only \$35/calendar year and \$15 for students
